

# ADD-ON

DANISH Product Standard  
Version 1.01

—  
ADD  
ON  
—

**It is possible to have an add-on to the DANISH Product Standard drawn up and approved.**

Relevant applications should be sent to SEGES: [akn@seges.dk](mailto:akn@seges.dk)

Under the add-on scheme, no requirement contained in the DANISH Product Standard can be deviated from or dispensed with.

The DANISH Product Standard requirements can be increased or penalised more rigorously in the add-on scheme - not lessened or eased.

The following schemes can be selected as extensions to the DANISH Product Standard:

1. Danish Crown UK Standard  
Contact Danish Crown for further information
2. TICAN UK standard

Requirements for both add-ons are that a full DANISH Product Standard is the underlying principle and that a DANISH Product Standard accredited Certification Body carries out annual checks of the entire DANISH Product Standard and the requirement elements that are additional to each of the respective scheme's approved add-on.

In addition, the DANISH-approved producer must have a separate agreement with the company(s)/organisation(s) requiring the add-on in order to have his herd certified according to one of the two supplementary schemes.

**Due date for evaluation**

The certification is valid for 13 months from the date of issue subject to an annual follow-up evaluation, a continuing contract with the company(ies)/organisations requiring the add-on and that the supplier of the certified product complies with the rules and conditions of certification and that the product continues to meet the evaluation basis and that it can be documented that the necessary routines are in place to maintain production. Recertification can be carried out three months before the expiry of certification.

The application for certification is made directly to the accredited Certification Body.

**Requirements relating to the schemes are available directly from:**

SEGES: [akn@seges.dk](mailto:akn@seges.dk)

Other requirements and regulations are based on the requirements and regulations of the DANISH Product Standard – Appendix 1
